Our Vision

Education is the key to the vitality and sustainability of our community. The Garrett County Public School System maintains an environment in which staff, students, parents, and the community work collectively for a brighter tomorrow. While celebrating the culture and traditions of Garrett County, the schools create an environment where students are nurtured to become productive, enthusiastic, and successful members of society.

Students will be active and engaged learners, who enjoy school. They will meet the challenges of robust curricula in a climate that is open, fair, honest, and respectful to all people. Schools, as learning communities, will offer opportunities for students to achieve excellence in their academics and compassion in their interactions and relationships with others.

Partnerships are integral to building a culture of rigorous, high-quality instruction in which excellence in student achievement is normative and ensures learning and success for all students. Community contributions are encouraged and valued. Partnerships support tangibly the innovation and creativity embedded in the school system and will energize the achievement of all students.

Highly-qualified employees will be recruited and hired who –

- Value students, parents, and the larger community
- Create and sustain learning environments in which students can realize their dreams
- Seek continuous improvement through staff development and curriculum implementation
- Immerse themselves within the schools to produce vibrant learning communities
- Demonstrate stewardship of the school system's resources

Parents and families are critical to the success of students. Their involvement, participation, and engagement in the school system will benefit teaching and learning for all students. In cooperation with school staff, parents and family are important in building their children's self-confidence and assisting them in acquiring the skills necessary for lifelong success and public engagement.

Our Mission

The mission of Garrett County Public Schools, in partnership with our community, is to inspire and foster student growth by providing rigorous instruction and learning opportunities, sustaining a culture of excellence, and preparing our students for life in an ever-changing world.

Our Goals

- All students will be challenged with a rigorous instructional environment preparing them to become life-long learners and responsible citizens.
- Partnerships with all members of our community will be fostered and strengthened by engaging them in the education of our children.
- All students and staff will learn in a safe, secure, and caring environment where everyone is valued and respected.
- Every department and school will be a good steward of system resources and will manage them in a cost-effective manner.
- All employees will be highly qualified and effective in their jobs contributing to a self-renewing organization.

Superintendent's Message

A Message from GCPS Superintendent Dr. Brenda McCartney:

As we gear up for the Fiscal Year 2025 budget, Garrett County Public Schools is dedicated to providing the best possible education for our students. We understand the importance of investing in our schools and ensuring students can access the resources they need to succeed.

- With the implementation of the Blueprint for Maryland's Future, we are beginning to see how this impacts allocations for schools across the state, including Garrett County Public Schools.

- As the Blueprint requires, we have allocated additional funding in this year's budget plan to support our Concentration of Poverty schools. This funding is to provide targeted interventions and support services to the students who are most in need. We acknowledge that these students face unique challenges and are committed to providing them with the necessary support to help them succeed.

- Our budget planning process aims to maintain a balanced budget while addressing the needs of our students and staff and implementing the Blueprint. To enhance our students' learning environment, we prioritize funding for instructional programming, social/emotional support, technology, and facility improvements.

I appreciate your continued support of Garrett County Public Schools. Together, we will continue to provide our students with an exceptional education.

Sincerely,

Superintendent, Garrett County Public Schools

Fund Classification

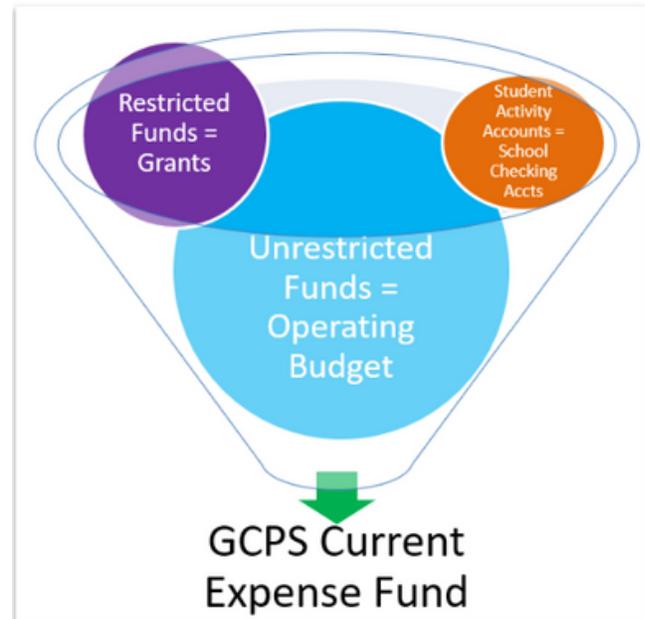

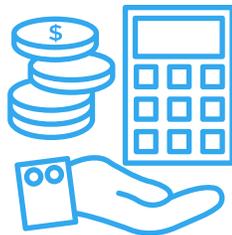

GCPS maintains a fund-level budgeting and accounting structure that meets the state mandate for local school system as detailed in the Financial Reporting Manual for Maryland Public Schools.

Current Expense Fund: The Current Expense Fund covers the expenses of providing and supporting day-to-day activities in the schools. This fund consists of the following:

- Unrestricted Fund = Operating Budget
- Restricted Fund = Special Revenue Fund for grant awards such as Title I, ESSER and Special Education IDEA Passthrough
- Student Activity Account Fund = Checking accounts at the school level
- Debt Service Fund is expensed through Operations in the Unrestricted Fund.

School Construction Fund: A special revenue fund used to account for all financial resources related to construction, renovation, repair of facilities, sites, or special projects that will be capitalized.

Food Service Fund: A special revenue fund used to account for the activities of the school food and nutrition services program. Revenues are generated by federal programs and meals served.

Garrett County Public Schools is committed to transparency and accountability in its budget development process. The FY2025 annual budget process was a collaborative approach across all departments. It included assessment of current departmental budgets and changes in enrollment as well as budgetary pressures including inflationary increases and reduced funding on both state and federal levels.

In developing the FY2025 budget GCPS collaborated with principals as well as directors and administrators to determine school and system needs in order to meet student's needs and reach the outcomes outlined in the Blueprint. The priorities set forth in the Superintendent's FY2025 budget are focused on expanding and enhancing academic opportunities for all students.

BLUEPRINT

FOR MARYLAND'S FUTURE

GCPS Blueprint Implementation

Garrett County Public Schools is fully committed to the implementation of the Blueprint for Maryland's Future (Blueprint). The Blueprint is a comprehensive education reform legislation that was passed in 2021, with the goal of transforming public education in Maryland to provide a world-class education for all students.

The Blueprint provides a framework for transformational change focused on five policy areas to improve educational outcomes for all students. The five policy areas include:

- **Pillar 1:** Early Childhood Education
- **Pillar 2:** High Quality Teachers and Leaders
- **Pillar 3:** College and Career Readiness
- **Pillar 4:** More Resources to Ensure All Students are Successful
- **Pillar 5:** Governance and Accountability

One of the primary outcomes of the Blueprint is to "improve the quality and equity of Maryland's education system so that all Maryland students, regardless of where they live, household income, race, ethnicity, gender, language spoken at home, disabilities, and any other unique characteristic, can leave high school globally competitive and prepared for success in post-secondary education, work, and life" (Accountability and Implementation Board, 2022, p.11).

As such, Garrett County Public Schools recognizes the importance of the Blueprint initiatives and is committed to implementing them as required by law to create improved outcomes for students. To view full details of Blueprint for Maryland's Future as it pertains to GCPS please visit our website, www.gcps.net/blueprint.

Source: Accountability and Implementation Board, Blueprint for Maryland's Future Initial Comprehensive Implementation Plan, 2022.

Weighted Student Funding

The Blueprint for Maryland's Future Funding formula is weighted student funding. That means the formula provides resources to local education agencies (LEAs) based on total student enrollment and on the enrollment of certain student subgroups. The law details the Blueprint Revenue Programs and the student subgroups.

Weighted Student Funding allocates dollars directly to schools based on the number of students enrolled and the specific needs of those students. Certain student needs and characteristics, such as English language learners or students in particular grade levels, will be given a predetermined weight that translates to real dollar amounts.

Garrett County Public Schools had traditionally allocated resources to schools based on student/teacher ratios. Funding for supplies and materials was also allocated on a formula based on student enrollment. Every student and every school are not the same. GCPS is committed to making transparent budget decisions that work in the best interests of all students regardless of what school they attend. Our goal in this new paradigm is to increase equity in funding, empower school leaders and support systemic priorities.

- **STUDENT-FOCUSED** – provides resources based on students, not on buildings, adults, or programs.
- **EQUITABLE** – funds will be equitably allocated to each student at each school based on his or her educational needs. Funding will be allocated to students with similar characteristics, regardless of which school they attend.
- **TRANSPARENT** – GCPS' method for allocating Blueprint Revenue Program resources will be based upon this formula.

NOTE: The above Blueprint Revenue Programs must be budgeted, monitored and reported at the school-level. A minimum of 75% of the total by program must be spent at the school-level.

Estimated Revenue:

Unrestricted, Restricted, and School Activity

The Current Expense Fund is reported in the Board's Annual Financial Report as a consolidation of the Unrestricted, Restricted, and School Activity Funds.

Estimated Receipts

Receipts to support the Garrett County Board of Education requested expenditures described elsewhere in the budget come from four sources: 1) The Federal government through the State of Maryland; 2) The State of Maryland; 3) The local county government; and 4) local boards of education funds.

The largest amount of funds (i.e., those from the county tax levy and State Aid) are largely unrestricted in that they can be utilized by the Board of Education in any of the various expenditure categories of the budget. Almost all other funds available are restricted in that those funds can only be spent for specific purposes.

Budget expenditures are funded by first matching restricted revenues with specific expenditures in both the dedicated and current expense portions of the budget. Next, the Major State Aid Blueprint Program revenues, both State and Local shares, are matched with required categories of the budget. The estimated prior year's budget balance can also be spread throughout the requested expenditure budget at the discretion of the Board of Education. The final determinant of how much and what can be allocated to the various categorical expenditures rests with the amount of funding that the county government allocates to the Board of Education from the county tax levy. If the county government provides an amount above the local share of the Blueprint Revenue Programs, other expenditures can be funded. Conversely, if sufficient funds are not made available to meet requested categorical expenditures, a reduction in the categorical expenditures would ultimately have to be made.

Restricted Program Revenue

FEDERAL FUNDS THROUGH STATE: RESTRICTED

Please refer to the Proposed Expenditures: Dedicated section for a description of these programs as well as a categorical listing of budgeted expenditures.

STATE OF MARYLAND: RESTRICTED

In Fiscal Year 2025, it is anticipated that six programs will be funded through restricted State funds. One of those is Blueprint for Maryland restricted fund, Concentration of Poverty, that is awarded to specific schools.
